

## **Pr Philippe Céruse**

ENT and head & neck department  
Lyon North University hospital  
Lyon France

Prof Philippe Céruse M.D, Ph.D, was born on January 1967, certified in ENT since 1994 and senior Head & Neck surgeon since 1997.

He is currently Head of the department of Head & Neck surgery at the Hospital University of Lyon (Hospices civils de Lyon) and Chair of ENT at the Medical university of Lyon (Université Claude Bernard Lyon1).

The fields of his competences cover the surgical and the medical treatment of the patients with head and neck carcinomas.

With his team he provides to his patients highly skilled expertise in reconstructive surgery, minimal invasive surgery and he is actually working on *laryngeal transplantation*.

Prof Céruse was a pioneer in France on TORS, he introduced this technique in his department since 2009 and he is an active member of the GETTEC French group (dedicated to the Head and Neck tumors) and he published numerous papers on TORS.
